

# Equiste PIVO Lessons

*Unfortunately, I can't travel everywhere, but I'm excited that I am still part of your Equine Journey – so lets enjoy it together!*

## Pivo Check Sheet

**Equipment:** Fully charged Pivo with tripod or on sturdy drum/platform  
Fully charged phone with Pivo Cast downloaded  
Bluetooth Air pods/ headset  
May need an external charger if your phone has trouble holding a charge

**Instructions:** Download Pivo Cast (was pivo meet)  
Bluetooth Phone to Pivo  
Bluetooth Airpods/headset to Phone  
Open Pivo Cast  
Copy and paste the code and email to: sarah@venamore.net  
Start Call (15mins prior to lesson)  
Mount up and begin your warm up.  
I will open up Pivo on my laptop and it should connect to you (within that warm up time frame).

**What can go wrong:** You need to check you have downloaded Chrome on your phone  
You need to turn your Apple Watch off  
You may need to weight the tripod down  
You may have horses nearby, and it may start following them.  
The set up may be too close to mirrors and the devices overheat.  
Your service is not strong enough to hold a connection.  
On a very windy day, it may be difficult for the rider to hear the coach.

**Finally:** It may be a little stressful on first attempt, but once you get the hang of it, it is so simple and easy!
